

Health and Hygiene Related Issues

For Women (29th Nov 2023)

Workshop was held on Health and Hygiene-Related Issues for Women at ITM, Initiatives by IQAC and Mata Amritanandamayi Math, Ernakulam, Kerala

The **Internal Quality Assurance Cell (IQAC)** at **ITM, Dehradun**, was pleased to announce a ground breaking event association with Mata Amritanandamayi Math, located in Ernakulam, Kerala, to address critical health and hygiene issues affecting women. The event was scheduled for today at auditorium of institute of technology and management. This joint effort underscores the commitment of both organizations to contribute meaningfully to women's well-being. Recognizing the significance of women's health and hygiene.

The event aims to create awareness and provide support to address the unique challenges faced by women in the community.

Known as Pad women of India, Ms. Anju Bist addressed as chief speaker of the event. It was an Awareness Programs cum workshop having objectives with Health Camps, Sanitary Hygiene Drive, use of reusable sanitary pads, Skill Development, and Community Engagement. The collaboration brings together the expertise and dedication of two organizations committed to humanitarian causes. By combining efforts this workshop seek to implement a holistic and community-driven approach to address women's health and hygiene issues.

The event featured dignitaries Anita Nautiyal, Founder of Him valley social foundation, Praveen Bisht, CIO with Amrita Hospital, Delhi, representatives of IQAC, ITM college registrar Ruchi Thapliyal, and Principal Dr. Anju Gairola Thapliyal with other faculty members and students who shared insights into the importance of prioritizing women's health and hygiene.
