ONLINE TALK (31st March 2023)

ITM has organized a wonderful "ONLINE TALK" session today with **Mr. KERN KUMAR, Masters of Public Health Doctoral Scholar of Healthcare Administration & Leadership at the Medical University of South Carolina USA.**

More Than 100+ students and faculties joined this session.

The session was about "Healthcare of the US and the opportunities for India from a business standpoint". He shared vast information through PPT mode. He discussed various points related to healthcare industry and various inbuilt sectors private and public, process operations, insurance, finances, delivery, organizational change and strategy and health IT.

He also shared various fields where students of India can seek career scope.

Mr. Kumar is a senior healthcare management Professional and advisor for the 5th largest healthcare system in the US. His Current and previous work includes streamlining strategic business processes and providing leading solutions in healthcare institutions, insurance companies, and other associated entities within the US. He worked for nationally ranked institutions such as Massachusetts General Hospital, the VA Healthcare System and Ernst & Young Global.

As in Academics he holds a Masters from Health Policy & Management from Boston University and a Continuing education certificate from Harvard University. He is graduated with high-honors in BSC Studies from Texas Tech University.
